It is said that at present there are only 15 shaps in the Japanese Navy fit for active service, but it is expected that by next year there will be added 47 mon of war and 8 torpedo boats which are in course of construction abroad and in Japan. The prosent yearly consumption of coal by the navy is about 3:000 tone so that when the contemplated additions have been made double that quantity will be required, but the Department need not fear any dearth of the black diamond, for their mine at Chikuzen is said to yet contain 35,000 000 tons, which will last a day or two. The Shogue Shimpo refers to the manufacturing company fever which has existed in Japan during the last four or five years. This however has now somewhat subsided. and at present the favourite speculation seems to be mining. The change has resulted in many abandoned mines being re-worked and a considerable increase in mining product. Last year the value of the output was about \$15,000,000, showing an increase of almost 50 per cent as compared with that of 1887. Of the amount mentioned copper represented \$6,000,000, coal \$3,000,000, silver \$2,000. 000 and gold \$400.0 0. The increased value of the output of copper will of course be due to the Bulling' of the French Copper Syndicate which raised the price of copper auddenly from \$15 per picul to \$25. To the strike of Australian miners may the increase shown in coal last rear be ascribed. It is believed that the yearly output of minerals can be increased to \$30,000,000—at least so says the Shogyo Shimpo.—Jopan Gazette.

As the negotiations for the revision of the treaties are to be reopened (by Japan) with each Power separately, it would seem that there will be no necessity for having intercourse with more than one Power at a time. But the authorities, thinking that it would be more pacific on their part to communicate with the several Powers concerned and obtain their consent to such a course previous to the reopening of negotiations, they have done so, and re hear the United States and Italy have no objection to it. It is said that England, which was at one time very hard to bring over, has readily agreed to the proposed arrangement, the only Power which yet objects being France. Their discontent concerning the change in our military system may have some effect on this question, but as that is a military matter and the revision of the treaty an international one, we need feel no concern over their attitude. There are some, however, who are anxious lest in the revision arrived here on Saturday, that General of the treaties matters may crop up for which we are unprepared and which cannot be readily settled. — Jiji Shimpo,

It was stated in the Senate today that \$300,000,000 had already been expended. Whether the amount is as large as that is immaterial. It is large enough: It will ruin thousands of honest people in France. An effort is being made by the disappointed shareholders to induce the French Government to take charge of the enterprise or in some way furnish direct Government aid to complete the canal and save the stockholders from the total loss of their investments. This movement on the part of the etockholders of the Panama Company rendered it necessary for the Government of the United States to make known its views with regard to the control grapple with the difficulty of light gold of the canal by any foreign Power. Intimations. THE CHINA REVIEW.

THIS Review, which was intended to meet I the wants of many students of Chinese caused by the discontinuance of ' Notes and Queries on China and Japan,' has reached its Fourteenth Volume. The Review discusses those topics which are uppermost in the minds of students of the 'Far East' and about which every intelligent person connected with China or Japan is desirous of acquiring trustworthy information. It includes many interesting Notes and original Papers on the Arts, Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Natural History, Antiquities, and Social Manners and Customs, etc., etc., of China, Japan, Mongolia, Tibet, and the Far East generally. Recently a new departure has been taken, and the Review now
